Aufgaben

We are looking for you to support DB Cargo in the field of production starting in October 2017 in Mainz and Frankfurt (Main) within the areas of Resource Management, Maintenance, Service Design, Operations Management or Efficiency Management. Your tasks:

- euroTRAIL offers you an excellent basis for starting your career at DB Cargo: Within fifteen months, you will work at different national and international stations and take over responsibility in current projects within the field of rail freight with the focus on production and logistics topics and projects
- An experienced manager will support you as a mentor while you are establishing your personal and professional network at DB Cargo
- A variety of off-the-job phases and workshops will thoroughly prepare you for a challenging professional start in the international rail logistics business, for example as production coordinator, analyst, procurement specialist or technical expert
- If you aspire a career at Europe's leading rail freight operator: apply for euroTRAIL! You will benefit from our development opportunities in an international company, an attractive benefit package as well as a permanent contract with DB Cargo

Anforderungen

Your profile:

- Good to very good university degree (Bachelor, Master) in business administration, industrial engineering and management with a focus on logistics
 - Previous practical experience, preferably in the area of logistics
 - Strong analytical and conceptual thinking as well as excellent communication skills
 - Good problem-solving and team player skills
 - Intercultural competence, international experience
 - Pan-European mobility and flexibility
 - At least intermediate English skills (B2) as well as proficient German skills (B2)
-
